Design of Bakso Cinta Cashier Application Using Microsoft Visual FoxPro 9.0.

Keywords : Design, Application, Cashier, Meatball, Microsoft Visual FoxPro.
(xix + 125 + Attachment)

Bakso Cinta is a business entity that conducts transactions that are still traditional, where the buyer pays a sum of money and gets proof of payment consisting of a handwritten note by the cashier. Sales reports that are made also still use the handwriting method. The purpose was made "Designing the Application of Love Meatball Sales System Using Microsoft Visual FoxPro 9.0" to facilitate transaction activities and facilitate the making of reports. This application is very helpful for business owners and employees in conducting transactions, and the results of transactions will be stored in the database for reporting.
